EDUCATION

Swami Sant Dass Public School(CBSE), Jalandhar
Passed 10th with 94.4% (June 2022)
Passed 12th with 85.5% (June 2024)

DAV Institute Of Engineering And Technology, Jalandhar
Pursuing B,Tech(CSE) with Avg SGPA: 8.30 (July2024 – Present)

SKILLS SUMMARY

• Languages: Python, C,C++
• Frameworks: Pandas, Numpy, Matplotlib
• Tools: Power BI, Excel, PowerPoint, MySQL
• Platforms: Jupyter Notebook, Visual Studio Code, Google Collab
• Soft Skills: Report Building, People Management, Excellent communication

WORK EXPERIENCE

DATA ANALYST INTERN | GROWAI EDTECH (June 25 – Sept 25)

- Developed interactive reports and dashboards that translated complex data into actionable business insights for senior leadership.
- Translated raw marketing data into clear, concise insights that supported product positioning and pricing strategies.
- Leveraged statistical techniques and visualization tools to uncover trends, anomalies, and growth opportunities.
- Conducted in-depth market research and analysis, resulting in the identification of key trends and insights that informed strategic decision-making processes.

MARKETING INTERN | 1Stop.ai (Apr 25 – May 25)

- Gained hands-on experience in SEO practices, social media management, and email marketing campaigns, learning how to increase audience reach and engagement effectively.
- Developed strong writing and editing skills by creating blog posts, social media captions, and promotional content tailored to target audiences.
- Conducted in-depth research to study market trends and competitor strategies, providing insights that supported better decision-making.
- Learned how to collect, organize, and present marketing data in structured reports, helping teams track campaign performance.

PROJECTS

COVID-19 Insights Dashboard (Power BI)|LINK

- Developed multi-source COVID-19 analytics dashboard integrating 3 CSV datasets with complex data relationships

- Managed data integrity and quality by establishing proper table relationships and data validation processes
- Created comprehensive visualizations tracking infection rates, recovery trends, and geographical spread patterns
- Implemented advanced filtering and drill-down capabilities enabling stakeholders to analyse pandemic trends across multiple dimensions

Sales Performance Dashboard (Excel)|LINK

- Developed comprehensive sales performance dashboard using advanced Excel functions and pivot tables to track key business metrics
- Implemented dynamic data visualization features including charts and graphs for realtime sales trend analysis
- Enhanced decision-making capabilities by creating automated reporting system that reduced manual analysis time by 40%
- Designed interactive filtering mechanisms to analyse sales performance across different product categories and time periods

Sales Analytics Dashboard (Power BI)|LINK

- Built interactive sales dashboard in Power BI connecting multiple data sources to provide comprehensive business insights
- Created dynamic visualizations and KPI tracking system to monitor sales performance across different regions and time periods
- Implemented data modelling techniques to establish relationships between customer, product, and sales data tables
- Delivered actionable insights through advanced DAX calculations and custom measures for revenue optimization

Ola Cabs Taxi Analysis (Power BI)|LINK

- Conducted comprehensive taxi operations analysis using Power BI to identify patterns in ride demand and driver utilization
- Analysed booking trends, cancellation rates, and peak hour patterns to optimize fleet management strategies
- Created geographic heat maps and time-series visualizations to identify high-demand locations and optimal resource allocation
- Generated data-driven recommendations that improved operational efficiency insights by 35%

Key Technical Skills: Power BI, Excel Advanced Functions, DAX Calculations, Data Modelling, ETL Processes, Data Visualization, Statistical Analysis, Dashboard Development
